

Laser Regulator and Switchover Kits

Turnkey packages to help protect gas quality and laser productivity.

Included with 1P kit

Type 1 Cylinder Mounted | 1P Wall Mounted Kits

Pre-Mix Resonator Gas Regulator Kit

All Type 1 kits generally will contain one LASERSTAR™ two-stage resonator gas regulator with a stainless steel diaphragm and purge valve and one clear resonator gas hose.

Type 1SW Kit

Pre-Mix Resonator Gas Switchover Kit

All Type 1SW kits generally will contain one cylinder rack with switchover with pigtailed and proper CGA fittings, regulator for two in-use and two in-reserve cylinders, one 50' clear resonator gas hose and an in-line filter.

Included with 2P kit

Type 2 Cylinder Mounted | 2P Wall Mounted Kits

CO₂ or Fiber Laser Assist Gas Regulator Kit

All Type 2 kits generally will contain one LASERSTAR support gas regulator with CGA540, one LASERSTAR support gas regulator with pigtail and CGA580, two support gas hoses and filter bags.

Type 3 Kit

Pure or Component Resonator Gas Regulator Kit

All Type 3 kits generally will contain three LASERSTAR two-stage resonator gas regulators with stainless steel diaphragms and purge valves, three clear resonator gas hoses and three in-line filters.

Type 3SW Kit

Pure or Component Resonator Gas Switchover Kit

All Type 3SW kits generally will contain one cylinder rack with three switchovers with pigtailed and proper CGA fittings and regulator for three in-use and three in-reserve cylinders and three in-line filters.

Laser Regulator Kits

For information about the right Laser Regulator Kit for older model machines (>3 years), contact your Linde Laser Specialist.
